NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2016

1. Basis of preparation

The condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard 34 (“HKAS 34”) *Interim Financial Reporting* issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) as well as with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the “HKSE”) (the “Listing Rules”).

2. Principal accounting policies

The condensed consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair values.

The accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 30 September 2016 are the same as those followed in the preparation of the Group’s annual financial statements for the year ended 31 March 2016.

In the current interim period, the Group has applied, for the first time, the following amendments to Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the HKICPA that are relevant for the preparation of the Group’s condensed consolidated financial statements:

Amendments to HKFRSs	Annual improvements to HKFRSs 2012 – 2014 cycle
Amendments to HKFRS 10, HKFRS 12 and HKAS 28	Investment entities: Applying the consolidation exception
Amendments to HKFRS 11	Accounting for acquisitions of interests in joint operations
Amendments to HKAS 1	Disclosure initiative
Amendments to HKAS 16 and HKAS 38	Clarification of acceptable methods of depreciation and amortisation
Amendments to HKAS 16 and HKAS 41	Agriculture: Bearer plants
Amendments to HKAS 27	Equity method in separate financial statements

The application of the above amendments to HKFRSs in the current interim period has had no material effect on the amounts reported in the condensed consolidated financial statements and/or disclosures set out in the condensed consolidated financial statements.

3. Segment information

The following is an analysis of the Group's revenue and results by operating segment, based on information provided to the chief operating decision maker ("CODM") representing the board of directors of the Company, for the purpose of allocating resources to segments and assessing their performance. This is also the basis upon which the Group is arranged and organised.

In prior interim periods, there were three reportable and operating segments, namely (i) property holding segment, (ii) strategic investment segment, and (iii) securities investment segment.

During the current interim period, in view of the continuing significance of the operation of the property holding segment, the CODM revised the organisation of segments that are used to allocate resources and assess performance, and considered to change its analysis based on nature of the property holding, being (i) commercial property holding; (ii) residential property holding; and (iii) Macau property holding, which is currently the basis used for the purpose of allocating resources and assessing their performance, and also the basis of organisation of the Group for managing the business operations. Other than the commercial property holding, residential property holding and Macau property holding segments, the CODM continues to review the performance of securities investment segment as similar basis as prior interim periods. Trading of commercial properties and hotels operation and strategic alliances with the joint venture partners of the joint ventures and associates, and investment and trading of residential properties and strategic alliances with the joint venture partners of the joint ventures and associates are aggregated into single reportable segments, respectively, as the CODM considered that they have similar economic characteristics.

Therefore, there are four reportable and operating segments in current interim period as follows:

- (a) commercial property holding segment, which engages in the investment and trading of commercial properties and hotels operation, and also the strategic alliances with the joint venture partners of the joint ventures and associates;
- (b) residential property holding segment, which engages in the investment and trading of residential properties, and also the strategic alliances with the joint venture partners of the joint ventures and associates;
- (c) Macau property holding segment, which engages in the investment and trading of properties located in Macau; and
- (d) securities investment segment, which engages in the securities trading and investment.

Consequently, the comparative segment information for the interim period ended 30 September 2015 have been re-presented in order to conform with the presentation adopted in current interim period. The changes in the segment information do not have any impact on the Group's condensed consolidated financial statements.

A review of these condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the condensed consolidated financial statements are not prepared, in all material respects, in accordance with HKAS 34.

MANAGEMENT DISCUSSION AND ANALYSIS

INTERIM DIVIDEND

The directors do not recommend the payment of any interim dividend for the six months ended 30 September 2016. (2015: Nil)

REVIEW OF THE RESULTS

The Group reported a total gross revenue for the six months ended 30 September 2016 of approximately HK\$301 million (six months ended 30 September 2015: HK\$229 million), which was mainly generated from income from sale of properties of approximately HK\$185 million and rental income of approximately HK\$116 million. The increase was mainly due to an increase in sales of properties during the period.

The Group reported a consolidated profit attributable to the owners of the Company of approximately HK\$124.3 million for the six months ended 30 September 2016 (six months ended 30 September 2015: HK\$525.9 million) representing a decrease of approximately 76.4%.

LIQUIDITY AND FINANCIAL RESOURCES

The Group maintained a healthy liquid position which included bank balance and cash of approximately HK\$3,888.2 million (31 March 2016: HK\$3,529.2 million). The Group generally financed its operations through its internal resources and bank facilities provided by its principal bankers.

The Group's short-term bank borrowing increased from approximately HK\$561.1 million as at 31 March 2016 to approximately HK\$1,061.3 million as at 30 September 2016, and long-term bank borrowing increased from approximately HK\$6,410.0 million as at 31 March 2016 to approximately HK\$6,779.9 million as at 30 September 2016. All the bank borrowings were utilized in financing the Group's properties investments in generating recurrent rental income. As a result, the Group's total bank borrowing increased from approximately HK\$6,971.1 million as at 31 March 2016 to approximately HK\$7,841.2 million as at 30 September 2016, and the Group's ratio of total debt (bank and other borrowings) to total assets was 50.5% (31 March 2016: 43.9%). All bank borrowings were denominated in Hong Kong dollars, Renminbi and US dollars and were on a floating rate basis at either bank prime rate lending rates or short-term inter-bank offer rates. The maturity profile (including borrowings of approximately HK\$214.6 million that are not repayable within one year but contain a repayment on demand clause in the loan agreement are grouped under repayable within one year) usually spread over a period of around 5-20 years with approximately HK\$1,061.3 million repayable within one year, HK\$6,598.6 million repayable between one to five years, and HK\$181.3 million over five years.

The majority of the Group's assets and liabilities were denominated in Hong Kong dollars, Renminbi and US dollars. As such, the fluctuation of foreign currencies did not have a significant impact on the performance, result and operation of the Group. However, the Group will closely monitor the risk exposure.

BUSINESS REVIEW AND OUTLOOK

The period under review has been full of challenges and surprises in the global macroeconomic context. Investment sentiment has been dampened by the rapid devaluation of the Renminbi since the beginning of year. Adding to that the surprising result of BREXIT and the subsequent fallout. These events have caused major upheavals in the global markets in all areas from currencies to interest rate and asset prices and affecting the investment sentiment for both commercial and residential properties.

For Hong Kong, the significant softening on the retail and tourism fronts has further affected sentiment in commercial retail properties. For the mainland, the rapid devaluation of the Renminbi and the government residential properties curbs have also dampened the investment sentiment in the Chinese market.

Despite these challenging operating environments, the Group has strived to deliver sound profitability and continued to make further advancement in real estate investment and development in Hong Kong and China. Furthermore, the Group has recently raised new debt capital to further strengthen its healthy balance sheet for further acquisition of additional prime commercial and residential projects, with details in the following section, and to further build up its land bank and drive future growth.

Commercial Properties

Disposals completed during the period amounted to the sale of the rooftop sky sign and unit 1507 of AXA Center in Wanchai for a total amount of around HK\$100 million.

On the acquisition side, the Group purchased a retail shopping mall named the Richgate in prime Xiantiandi area for a total consideration of RMB1.37 billion. Following future refurbishment and repositioning of the mall by bringing in premium brand tenants, we believe the prime location of this retail mall will drive significant value creation.

On the operation side, construction is making good progress at our Kowloon Bay office land site opposite to the Enterprise III building which we invested through a consortium with Billion Development and SinoLand. With the recent record sales price achieved for an adjacent land site sold by Swire Properties, we are quite confident on decent profitability in the future for this project.

In addition, our two commercial redevelopment sites in the prime area of Central are also making solid progress. The Shelley Street project is making good headway in the construction phase and is positioned for presale in 2017. The Cochrane Street site will commence demolition of the existing building soon for redevelopment into a new iconic commercial building with GFA of over 30,000 square feet at this prime commercial/entertainment area in Central.

The J-Plus by yoo hotel and the Novotel hotel have both been able to maintain steady occupancy and room rates despite the slowdown in mainland tourist numbers. We will closely monitor the market to ensure decent hospitality revenue for these two key hotel assets.

For the In-point shopping mall in Shanghai, we have received the necessary government approvals to convert into double decker retail shops to further enhance our tenancy profiles and rental income. With the opening of the adjacent Daizhongli complex by Swire Properties, we expect the project will have significant value creation through tenancy upgrades and rental enhancement.

On our Ashley Road redevelopment, we are nearing ownership consolidation of the entire site of approximately 8,000 square feet and the current plan is to commence redevelopment within the next 12 to 18 months.

With a strong pipeline of these forthcoming exciting commercial development projects, we are optimistic on the prospective profitability from the commercial division in the coming years.

Coutures Homes – Residential Property Development

On the disposal side, 12 units of our life-style oriented project in Causeway Bay, yoo Residence, were sold in this interim period for a total amount of approximately HK\$162 million. The exclusive penthouse unit with full Victoria harbor view and retail shops will be put up for sale and we expect top valuation to be achieved. The premium pricing achieved for these units help to cement the reputation of Couture Homes as a leading lifestyle property developer in Greater China.

The villas in our Queen's Gate project in Daihongqiao in Shanghai have received tremendous responses with 109 villas sold in this interim period for approximately RMB1.6 billion. In total, over 170 villas have been sold for approximately RMB2.4 billion, with delivery for all units expected before the end of the fiscal year. The remaining inventory of 42 villas and 96 apartments are awaiting the relevant government approval on the pricing scheme and we are optimistic on the successful sales of these units at optimal pricing.

The Kau To Shan villa project have also witnessed positive momentum with another two villas sold in this fiscal year-to-date. With the neighbouring projects from Sun Hung Kai Properties and Wing Tai Properties, etc. nearing completion, the area is expected to become the new high-end residential landmark in Shatin and attracting more affluent spenders to move into this stylish and scenic locality.

The residential project in Tuen Mun is making good construction progress and presale work is expected in the first half of 2017 for this mix commercial/residential project. With the continuing demand for quality residences from buyers in Hong Kong despite the new stamp duty measures, we expect this new luxurious residential high-rise with over 200 units will have strong support from lifestyle-oriented buyers in Hong Kong at this convenient and vibrant location.

In addition, the Peak Road refurbishment project is making good headway and the estate renovation work will commence soon. Working with leading international architectural firm PDP London, the whole estate will be revamped with complete refurbishment of the façade, internal common spaces and landscape. In addition, the interiors of the units will be restyled to trendy contemporary designs and fittings to commensurate this towering and tranquil address with 180 degrees Victoria Harbour view. We are in strong belief that post the revamp, the full value of this project can be extracted with premium pricing similar to the OPUS or Mount Nicholson for this prime peak address.

Subsequent to the interim period, the Group made its first entry into the Beijing market through a joint venture in the acquisition of, the Legendale, a luxury residential project at JinBao Street for RMB1.83 billion. The area is one of the most prime locations in Beijing and neighbouring the Regent Hotel and the Hong Kong Jockey Club clubhouse in Beijing. The plan will be to refurbish the existing structure including the facade and lobby areas and the interior of residential units to modern designs to capture the significant price appreciation of this primely located project.

With these exciting new projects on the horizon and the expected liquidity and demand for premier high end residential properties from mainland and Hong Kong investors and users, we aim to continue the drive to have Couture Homes recognized in the market as the distinct and unique supplier of personalized luxury homes.

Corporate Activities

The Group completed a new bond issue through HSBC, UBS and DBS to raise US\$250 million in August 2016 at an attractive coupon of 4.875%. This issue is the second time for the Group to access the debt capital markets and was very successful in terms of reception from both institutional and private investors with six times oversubscription.

Outlook

The global economy is going through uncertain times due to unclear policies outlook from the BREXIT event and the election of Mr. Donald Trump as the forthcoming president of the United States of America. The Renminbi rapid devaluation is also exerting strong pressure on the Chinese and Hong Kong economies. Last but not least is the extra stamp duty measures imposed by the Hong Kong government for residential properties.

Despite these uncertainties, the Group will continue to actively enhance our commercial and residential portfolio to add value and increase our net asset value. Furthermore, we will closely monitor the market in terms of new disposals and acquisitions to ensure our solid balance sheet can be further enhanced, while optimally replenishing our land bank to further develop and continue the steady growth of the Group.

The Group's employees are remunerated in line with the prevailing market terms and individual performance, with the remuneration package and policies reviewed on a regular basis.
